

Committee for the Future

- A Finnish Social Innovation

MP Päivi Lipponen
Ph.D, MBA

Committee for the Future 2011 - 2015

The Committee for the Future's strategy and operational plan for 2011-15

In autumn 2011 the Committee preliminarily chose seven areas of study for itself during the 2011-15 parliamentary term:

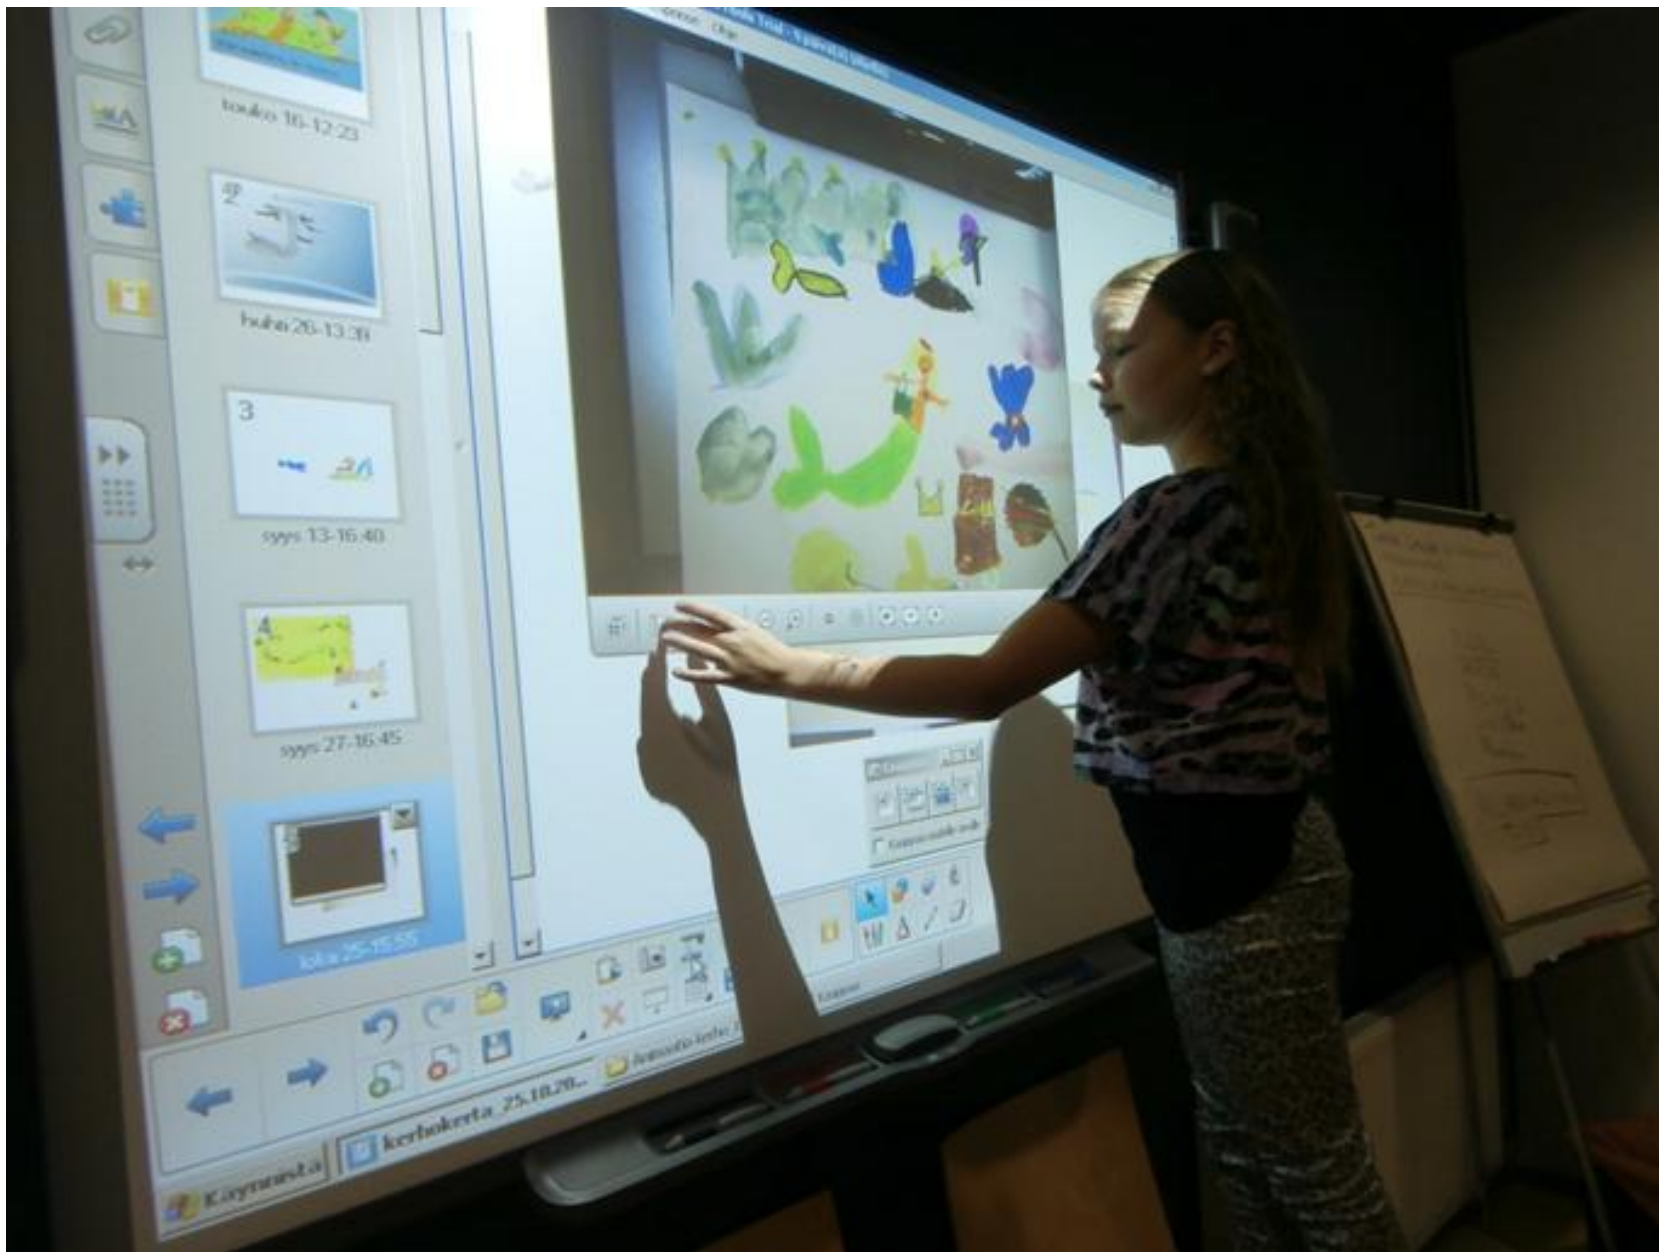

- Sustainable Growth,
- An Inspired Society,
- Acquiring New Knowledge,
- Can the Welfare Society Endure?
- Black Swans,
- Crowdsourcing, and
- Radical Technologies

The themes are chosen from the Committee's interests, but also to create a readiness to respond to the Government's report on the future. These reports facilitate a long-term general analysis for Finland and prepare a futures map/roadmap for use in a global, unpredictably changing world that contains new and multidimensional uncertainties.

PARLIAMENT
OF FINLAND

Thank you !
