

Making Cross European TA

Marianne Barland
The Norwegian Board of Technology

PACITA

Cross European Technology Assessment

- PACITA
 - Broaden the field of European TA
 - Make a vision for European TA
- Cross European TA
 - Technology assessment across borders
 - Common objective and cooperation
 - Diverse in approaches and methods
 - Different cultural contexts

PACITA

Main Questions

- Why cross European projects?
- How can we do them in the best way possible?
- A vision for European TA 2020?

PACITA

What we have done

- Case studies of previous projects
- Workshops
 - Copenhagen June 2012
 - Karlsruhe November 2012

PACITA

Why cross European TA?

- Policy
 - Technologies are the same – contexts differ
 - International developments
 - Learning and input
- TA-community
 - Strengthen ties between units
 - Institutional learning and exchange of experience
 - Develop TA methods

PACITA

How can we do projects in the best possible way?

- Strategic communication
- Smarter use of resources
- Show the uniqueness and added value of TA
- Identity factors that make TA special

What do we want European TA to be?

- A vision for European TA 202
 - Inclusive and diverse
 - Independent
 - Permanent and stable
 - Promote and disseminate TA
 - Make an impact!

PACITA

The way ahead

- Cross European TA Association ?
- Goals
 - Communication
 - Impact
 - Success

Thank you for your attention!
